Summary

Software Engineer with 3 years of experience across Shopify theme development and enterprise platforms. Strong expertise in Shopify Liquid, JavaScript, Typescript, HTML5, and CSS3, with hands-on experience building schema-driven custom sections, AJAX-based cart features, and merchant-configurable themes. Performance-focused problem solver experienced in theme optimization, UI engineering, and platform-aware feature implementation, collaborating closely with cross-functional teams to deliver scalable, Shopify-native solutions.

Technical Skills

- **Programming Languages:** Java, JavaScript, Python, PHP
- **Backend Development:** Python, Spring Boot, Microservices
- **Frontend & Web Technologies:** HTML, CSS, XML, Shopify Liquid, JavaScript, React, Typescript
- **Platforms:** Shopify Theme Development, Theme Customization, Shopify Deployment
- **Pega:** Pega 8.7, 8.8, Pega RULES
- **Integration:** REST, SOAP, API Connectors
- **Databases:** SQL, Oracle, MongoDB
- **Testing & Debugging:** JUnit, Pega Tracer, Live UI, Clipboard
- **Version Control:** Git
- **Cloud & DevOps:** CI/CD Pipelines, Docker

Work Experience

Associate Software Engineer

2025 - Present

Glancito LLC

Remote

- Developed and customized Shopify storefront applications using TypeScript, JavaScript, HTML5, CSS3, and Liquid, delivering scalable and user-friendly e-commerce experiences.
- Built dynamic frontend components using TypeScript and modern JavaScript, improving maintainability and enabling modular UI development.
- Implemented AJAX-based cart and storefront interactions, enabling real-time updates without page reloads to enhance user experience.
- Designed and developed responsive UI components using HTML5 and CSS3, ensuring cross-browser compatibility and mobile-friendly storefront layouts.
- Created API-driven loyalty management features, calculating reward points based on product pricing and cart value.
- Developed merchant-configurable theme components allowing store owners to manage loyalty features directly from Shopify theme settings.
- Built a standalone loyalty information page, improving accessibility and reducing reliance on modal popups.
- Integrated new features into existing storefront architecture while ensuring frontend performance optimization and clean UI rendering.

- Collaborated with cross-functional teams to design, implement, test, and deploy new web application features.
- Implemented customer segmentation logic and automation workflows, enabling more targeted marketing campaigns.
- Contributed to implementing AI-assisted campaign content creation, improving efficiency and personalization in marketing campaigns.

Programmer

2022 - 2024

Cognizant Technology Solutions

Banglore

- Developed end-to-end case life cycles for Insurance, and Banking applications using Pega BPM, ensuring scalability and maintainability.
- Integrated REST APIs and services through Connect SQL, SOAP, and REST connectors, optimizing data synchronization and customer record management.
- Implemented Data Transforms & Data Pages, improving data accuracy and operational efficiency.
- Designed and managed Service-Level Agreements (SLAs) with escalation protocols, ensuring timely task completion.
- Developed Business Process Flows, Flow Actions, and UI components using HTML, CSS, and JavaScript, enhancing user experience.
- Defined and managed Access Controls, including Access Groups, Roles, and Privileges, ensuring secure application access.
- Optimized application performance using Pega declarative rules, debugging tools (Tracer, Live UI, Clipboard), and decisioning rules.
- Configured Report Definitions to provide critical business insights to stakeholders.
- Worked in Agile/Scrum environments, implementing unit testing frameworks like JUnit for Test-Driven Development (TDD).

Education

Bachelor of Science in Computer Science (8.02)

2019 - 2022

Kalasalingam Academy of Research and Education

Master of Computer Application

2023 - 2025

Kalasalingam Academy of Research and Education

Certifications

- **Pega Certified System Architect** - Pegasystems
- **Pega Certified Senior System Architect** - Pegasystems
- **The Fundamentals of Digital Marketing** - Google Digital Garage
- **Data Analytics and Visualization** - Forage
- **Generative AI Fundamentals** - Cognizant
- **SQL for Beginners** - Udemy
- **Agile methodology and Jira software tool** - Kare
